

Bill of Rights

The First Amendment is a combination
Including speech and press and free religion
We can assemble, complain and petition
In #2 we get our own militia
We carry guns with little supervision
In #3 no soldiers in our kitchen

How do we know
If we have the freedom to show
A little segment of a movie
where the socks are down too low?
How can we tell...
Do we know our freedoms so well?
You might be more than bright
In fact you might be out of sight
If you know your Bill of Rights

Amendment 4 prohibits searches and seizures
Without a warrant and complex procedures
Protect my stuff except up under the bleachers
I'll plead the 5th but know that something's wrong
It's double jeopardy and I don't belong
The grand jury says the indictment's strong

Chorus

And now there's 6 and a speedy trial
A public denial
The guilt shown in my eyes
I'll confront the witnesses against me
Yeah, they won't even miss me
But at least I was advised...
Yeah, I was freely advised

...7 is important while
We get a jury in a civil trial
If it's a matter of a \$20 fine
Amendment 8 says they just can't be mean
Unusual and cruel just can't be seen
Excessive bail means you get to keep more green
9 says we get a bunch of rights...like the right to stay awake all night
10 simply says that the government is
limited to the power of a satellite
limited to the power of a satellite
limited to the power of a satellite

Chorus
